

**Test 1 | 29 April 2010**

## **TEST 1**

Let us try a first test! Anonymously. No marks. Just test. Read the question, answer in the space below (or on the back side).

- 1** Do you have a CAD application system installed on your laptop? If yes: what is its name?
- 2** Do you occasionally use a CAD system, your own or a different one? Indicate something you have done with it.
- 3** What is a wireframe model?
- 4** How would you characterize those points in space that belong to the surface of a sphere?
